### Landings - keep them clear, keep them safe

whg and West Midlands Fire Service need your help to keep all communal areas of your building clear.

If there was a fire on your landing any obstruction would not just hinder your escape, it may also make the fire worse and get in the way of the fire service.

There have been incidents where objects left on landings have either caused or been involved in a fire.

whg insists that no items of any kind are kept in communal areas, especially landings.

In the event of a fire, landings and staircases would be the main escape route from your building. Objects and decorations on landings and staircases create an increased risk of fire and prevent escape.

As part of promoting fire safety in all whg properties, we need you to carefully consider the following:

- storage of flammable materials on landings is not just unsafe for you, but can be a target for arson
- burning objects can generate toxic smoke
- furniture and other items stored on your landing could add fuel to a fire
- in the event of a fire elsewhere in the building, objects on landings could become a trip hazard
- escape routes need to be kept clear at all times.

Please make sure you dispose of all your rubbish and furniture correctly, for your own safety and the safety of others.

If in doubt or if you have any questions, please contact your local housing office.
