

Domestic Abuse Customer Policy

1.0 SCOPE

Purpose

- 1.1. This policy details the principles by which whg will support customers experiencing Domestic Abuse (DA).
- 1.2. The aim of the Policy is to support customers experiencing DA and mitigate the risk of DA to all customers, to assist those who are affected by DA where appropriate.
- 1.3. We take all forms of DA seriously and are committed to ensuring that customers experiencing DA are provided with a fair, sensitive, and confidential service.
- 1.4. whg adopts the Home Office definition of DA:

‘Any incident or pattern of incidents of controlling, coercive or threatening behaviour , violence or abuse between those aged 16 or over who are or have been intimate partners or family members regardless of gender or sexuality’.
- 1.5. This can encompass, but is not limited to, the following types of abuse:
 - psychological
 - physical
 - sexual
 - financial
 - emotional

This includes so called ‘honour’ based violence, female genital mutilation (FGM) and forced marriage.

2.0 POLICY STATEMENT

Our response

- 2.1. Customers experiencing DA will receive a confidential and sensitive service. We will speak to them via telephone, email or face to face dependent upon their preference and any potential risk. We are happy where safe, to visit customers in their home, or to see them at any of our offices that are open for customers.
- 2.2. Customers will receive advice, they will be signposted to any relevant partner that may be able to assist further, they will receive target hardening advice and support and, where there is a high risk of further serious harm, consideration will be given to re-housing.
- 2.3. whg works closely with partner agencies in relation to the prevention of DA and support of any customer experiencing DA. Partners include the Police, the relevant Local Authority, Social Services and specialist DA services such as Women's Aid.

- 2.4. All discussions with customers will be confidential and any safeguarding concerns regarding children will be reported. We may also report serious criminal matters and concerns regarding serious future risk (including adult safeguarding) to the Police

Target Hardening and Re-Housing

- 2.5. whg will always seek to support victims to remain in their homes by target hardening and providing support. There is evidence to indicate that, if rehousing is not done appropriately, it can actually heighten the risk to the victim.
- 2.6. Target Hardening means reducing or mitigating particular risks of DA. This can involve providing advice to a customer about changing their daily routine, their online security or general crime prevention advice or it could mean making physical changes to their home, for example adding additional locks or installing CCTV or window alarms.
- 2.7. The re-housing of victims will be considered if they are at significant risk in their current home. In these cases whg will undertake an assessment of how the risk will be mitigated if re-housing is arranged. If re-housing is agreed, customers will be considered to have a 'critical need' and receive 'gold' banding in accordance with whg's allocations policy.
- 2.8. In the event that rehousing is agreed, customers will be spoken to in detail about what will be required from whg and the customer in order for the rehousing to increase safety and mitigate the risk of further DA. Failure to follow the advice and guidance provided may result in the customer becoming at risk of DA again despite moving home.
- 2.9. Customers who are due to be re-housed because of DA can expect to receive a single one off offer of rehousing which will ordinarily be a 'like for like' property, (for example, a customer leaving a two bedroom flat will receive an offer for another two bedroom flat).
- 2.10. The location of the new property could be any whg property in any area that would adequately mitigate the risk of further DA.

Partnership working

- 2.11. whg will work closely with partner agencies to support victims of DA and contribute to initiatives designed to prevent DA. We will be in regular contact with partners including Local Authorities, the NHS, the Police and local DA charities and support groups, including any stakeholder providing Independent

Domestic Abuse Advocacy services (IDVAs)
